[Lady Sophia:]

I am all of that which is not shaped by it's past  
The beginning, the end, everything in between  
My mind creates, divides, separates...  
A burden for all time  
I've found peace within myself  
Which truly isn't mine  
Look into my eyes  
Infernal passion pends  
Let my song of creation commence

[Part II Creation]

[Lady Sophia:]

A scorching earth a blinding sky,  
I close my eyes and visualise  
In a vigilante storm the shape seems to appear  
I breathe the wind, my tears fill the lakes  
A part of me starts to be  
In this vast symphony the melody is clear

Ancient spells I whisper  
Moulding clay to live  
Creating skies and seas

All the beauty in my world  
All that is honest and is true  
I will pour into you, my Sister  
The guardian of all that is good  
This task I appoint to you  
Cherish it, remember it

For every right is wrong  
For every light is darkness  
For every day is night  
For every song is silence

[Ensemble:]

For every right is wrong  
For every day is night  
Ancient spells I whisper

Moulding clay to live  
Forging light and darkness  
Fasten their emotions  
To live forever free
