A tear in your eyes  
Is an eclipse of the sun.  
But I realize life goes on.

Oh, my love, it's only a cloud to go.  
Oh, my love, it's only a cloud.  
Tell me you know.  
After the rain, after the rain.  
Never again, after the rain.

I'm tired and cold  
But I'm feeling so strong.  
We've been on this road for so long.

Oh my love, it's only a cloud to go.  
Oh my love, it's only a cloud.  
Tell me you know.  
After the rain, after the rain.  
It'll never, never be the same  
Ohh, after the rain.  
After th rain.
