# "When I Find Love"

Visit "[When I Find Love](#)" on MotoLyrics.com

All alone I stand  
Black and blue inside  
Stranger on this land  
Where dreams are known to hide  
Does it matter now  
Words we never meant  
I saved my heart somehow  
But I can't forget

When I find love  
I hope it to be a little like you  
When I find love  
When I open my eyes  
Let it be you

Evil clouds roll by  
I made it through the rain  
And I swear ... I swear I'm gonna try  
To carry on again  
If shooting stars don't lie  
You'll come back to me  
And I know ... I know it's in the sky  
For us to see

When I find love  
I hope it to be a little like you  
When I find love  
When I open my eyes  
When I find love

I saved my heart somehow  
But I can't forget

When I find love  
I hope it to be a little like you  
When I find love  
When I open my eyes  
Let it be you
