I think that I might have to get up out of here  
?Cause the vibe ain?t nowhere where it usually is  
Pass this little thing that talks in my phone  
Tryina convince me come to her home  
But before arriving, ain?t made it out the door  
That?s when baby girl walked in

It just got sexy up in here  
I say the way you banging  
Ain?t get sexy, today you came, girl  
Sexy up in here  
I was on my way to my ride  
But you right on time,  
You made it sexy up in here  
Yeah, that?s right, girl you got it  
You know you got it  
Sexy up in here  
Hey girl, you?re sexy

Baby you came, shut everything down when you  
walked in  
Your mood changed everything about the atmosphere  
Now we get to talking all night long  
Next thing I know I?m taking you home  
Tryina keep composure walking through the door  
And that?s when the clothes hit the floor

It just got sexy up in here  
I say the way you banging  
Ain?t get sexy, today you came, girl  
Sexy up in here  
I was on my way to my ride  
But you right on time,  
You made it sexy up in here  
Yeah, that?s right, girl you got it  
You know you got it  
Sexy up in here  
Hey girl, you?re sexy

Shut it down, girl you shut it down  
If you know you got your hair and your nails right

Standing out in the crowd  
Girl you know that it's about to be a good night  
So if you shouldn't step up the club ain't popping with  
action  
Put your hands up if you know yourself stomping  
And the club ain't popping with action

You know you got it sexy up in here  
I say the way you banging  
Ain't get sexy, today you came, girl  
Sexy up in here  
I was on my way to my ride  
But you right on time,  
You made it sexy up in here  
Yeah, that's right, girl you got it  
You know you got it  
Sexy up in here  
Hey girl, you're sexy
