I've got all of my time to give if you will receive
I've got a lot of faith in love if you still don't leave
Don't you know we've got a good life to achieve
Angel come to me

Heaven sent down an angel to my heart
To bring a brand new start when the sky's still in gray
Heaven sent down an angel to my heart
I felt the bless of life since you came away

Because it's suddenly a person to be sitting in life
Softly turning green
Rain is keeping wet for birds beacuse I dream of you
Angel come to me

Ever sit down an angel to my sad and lonely heart
(The sky is changing to blue again because of you)
Don't worry if someone turning it green it's been sitting
with life
(Ever since you came this way)

Heaven sent down an angel to my heart
To bring a brand new start when the sky's still in gray
Heaven sent down an angel to my heart
I felt the bless of life since you came away
