The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

We are all hungry  
We are all tired  
Our tongues they are all on fire  
The walls that we build are higher, higher, higher,  
higher, higher...

Strange days lead to strange nights  
You aren't afraid of the dark, dark, dark, dark  
When it's where you walk, walk, walk, walk  
When it's where you learn to talk...

Every day the sky gets lower, lower, lower, lower...  
And every day the tide gets blacker, blacker, blacker,  
blacker...  
And every day the flames get higher, higher, higher,  
higher...  
Yeah, every day the flames get higher, higher, higher,  
higher.

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
If we cut off the water  
Then the jackals will return

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
If we cut off the water  
Then the jackals will return

We live like lions

We live our lives

With no more husbands, no more wives  
We let our children multiply 'cause we're afraid of  
dying

Every day the sky gets lower, lower, lower, lower...  
And every day the tide gets blacker, blacker, blacker,  
blacker...  
And every day the flames get higher, higher, higher,  
higher...  
Yeah, every day the flames get higher, higher, higher,  
higher.

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
If we cut off the water  
Then the jackals will return

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
If we cut off the water  
Then the jackals will return

The Earth, the Earth, the Earth is on fire  
We don't have no daughter  
Let the motherfucker burn.

The Earth, the Earth, the Earth is on fire  
If we cut off the water  
Then the jackals will return
