Bless this hour of meditation,  
Just us and our medication.  
Can't say it ex-ex-ex-ex-explicitly.  
All my friends became my family!  
There is an obvious change in me!

I tripped, and fell in love with you.  
Honest, you do what I aim to.  
We looked at each other,  
And our eyes were clear.  
Love your family, you do well, and so sincere.  
I tripped, and fell in love with you.  
Dance in the light, honest you do.  
We looked at each other,  
And our eyes were clear  
Love your family, you do well, and so sincere.

I tripped!  
tripped, tripped, tripped, tripped, tripped  
(over & over again)

Entangled in Vertigo, here we go,  
And now you know how I've felt all along.  
Decadence and Charity coming on strong.  
I told myself I'd never write a love song.

We've known each other our whole lives  
Under circumstance and sacrifice.  
Now we're together un-ex-expectedly.

All my friends became my family!  
There is an obvious change in me!

Well I tripped and fell in love with you, honest you do  
what I aim to,  
we looked at each other and our eyes were clear,  
love your family, you do well and so sincere,  
Well I tripped and fell in love with you,  
dance in the light, honest you do,  
we looked at each other and our eyes were clear,  
love your family you do well and so sincere, (I tripped)
