And protect your eyes.

Protect your eyes

What you say, Cuz I can't hear you
We don't know so we ignored you
Take the luck to change the bets now
We've had all we've ever wanted

Don't get error
100 percent
Don't get error
100 percent

Protect your eyes
Protect your self from
Digital Decay

Digital decay

What you say, Cuz I can't hear you
We don't know so we ignored you
Take the luck to change the bets now
We've had all we've ever wanted

[Police scanner]

Don't give it to the cops
The cops will steal our servers
(X4)

[Police scanner]

What you say, Cuz I can't hear you
We don't know so we ignored you
Take the luck to change the bets now
We've had all we've ever wanted

What you say, Cuz I can't hear you
[I can't hear you]
We don't know so we ignored you
[We ignored you]
Take the luck to change the bets now
[It changed, it changed]
We've had all we've ever wanted
(X3)

What you say, Cuz I can't hear you
We don't know so we ignored you
Take the luck to change the bets now
We've had all we've ever wanted
