Ohh, hey ohh
Still got the same look that sets me off
I guess that's just something about you
I got this feelings .. let em show
'cause I .. let you go, 'cause I should have let you go
You, that's for closure before
Think girl I've told you it's over
It's not over, so here we go again yeah..

Chorus:

It's like I'm falling in love, all over again of first sight
And I know that it feels right, it's like I'm falling in love,
all over again, love of first sight, do you know how I
feel
To the left, left, left, left, on the right, right, right
in the back, back, back, on the side, side, side.
To the left, left, left, left, on the right, right, right
in the back, back, back, on the side, side, side, tonight.

I know I try not to face the truth
But no one can touch me like you do
Your love is steady and pulls me in
Like a song when it first begin
I just don't wanna let this in
No, just take me over and you
I'm not controlled I've told you
I told ya, I told ya, I'm ready to go again girl.

[Chorus:]

Baby it's something that you did it holds me on
Maybe that something keeps me moving on
The moment I see ya I know it's gonna be you
I got this figure out.

[Chorus:]

All over again
All over again, over again.
Ohh yeah, over again.
