Ooo no yeah
Nooo

Did I take the time to hear her out
When she complained (no)
Did I try to make it better did I
try to change (no)
Was I grateful really faithful?
Maybe that's why she aint my girl

And when I made her cry did I say Im sorry (no)
And when she said goodbye did she even call
me (no)
I shoulda kept my promise
I coulda been more honest
Maybe that's why shawty aint my girl

Should been less about me
And more about her
Now all theres left is me cuz there aint no her
Now she's gone and I know I aint
gon' get her back
Shoulda put her first and I know
I shoulda known that, cuz me wanted my way
And me wanted to play
Now me got me saying why me? (yeah)
I learned my lesson and hope I
Get another chance
Now I understand it aint always bout me

Is she the same girl I said I couldn't live without (yeah)
Is she the one the whole neighborhood be
Talking bout (yeah)
When I had it took it for granted
Now someone else is with my girl (going crazy)
Thinkin bout what I did (like I lost everything)
Don't think I can handle it (noo)
I aint never felt nothing like this
And now I know what a heartache is!
Should been less about me
And more about her
Now all theres left is me cuz there aint no her

Now she's gone and I know I aint
gon' get her back
Shoulda put her first and I know
I shoulda known that, cuz me wanted my way
And me wanted to play
Now me got me saying why me? (yeah)
I learned my lesson and hope I
Get another chance
Now I understand it aint always bout me

Ima keep it one hundred with my fellas
Pay attention to your girl
If you wanna keep em u better know how to treat em
And let her that she's your world
Thought everything was good but I was so wrong
Take it from me and now it's over
I realized my mistake
I realized im way too late

Should been less about me
And more about her
Now all theres left is me cuz there aint no her
Now she's gone and I know I aint
gon' get her back
Shoulda put her first and I know
I shoulda known that, cuz me wanted my way
And me wanted to play
Now me got me saying why me? (yeah)
I learned my lesson and hope I
Get another chance
Now I understand it aint always bout me
