All our memories spent together
There all out the door gone forever
I don't think you know how bad it hurts
To see all the good times buried in the dirt

You and me never existed, existed
Everything is gone down to our kisses, our kisses

I've got lost memories
I've got lost memories
Can't even remember what we used to be
We had a good time
We had a good ride
But it's lost forever

Sometimes I feel like we moved too fast
All our memories dumped and trashed
I'm tryna hold on but they're all out of grasp
Sometimes I wish that I could relive the past
You and me
Me and you
Us together was a dream come true
But now that you're gone I don't know what to do
My heart is frozen, can't even move

Can't believe that we never existed
Everything's one down to our kisses

Trying not to think about how bad i miss it
But then I go back and see

I've got lost memories
I've got lost memories
Can't even remember what we used to be
We had a good time
We had a good ride
But it's lost forever

(Bridge)

She's gone forever
Now I'm lost forever
Now I'm lost without her
Now I'm lost

I've got lost memories
I've got lost memories
Can't even remember what we used to be
We had a good time
We had a good ride
But it's lost forever
You and me never existed, existed
Everything is gone down to our kisses, our kisses
