[Mishon - Verse 1]

It's about to go down  
When them lights go low  
And them cameras coming on  
We bout to make a movie girl  
So shawty lay in the bed  
I love it when you give me  
Now, when you're doing your thing  
And put your tongue on me

[Chorus]

Girl you so creative  
And I cant lie  
Its gon end up however we make it  
Wearing my favorite and you on fire  
When you look in the mirror press play  
You dancing away, away, away, away  
Girl I found your glass slipper today  
You dancing away, away, away, away  
Ima take you out and take you down  
Down, down

[Yung Durty - Verse 2]

Yeah Yeah  
She looking good in that lingerie  
Ima get you to play  
Oh baby what you wont do?  
I see you over there looking so cute  
Got her doing things I ain't given a fuck  
And she doing what I like and she doing enough  
Ima play her my position  
And Ima give it to her rough  
You know you like me

[Chorus]

You so creative  
And I cant lie  
Its gon end up however we make it  
Wearing my favorite and you on fire  
When you look in the mirror press play  
You dancing away, away, away, away

Girl I found your glass slipper today  
You dancing away, away, away, away  
Ima take you out and take you down  
Down, down

[Bridge]

[Yung Durty]  
Baby grind on me  
Baby wind on me  
Ima, Ima take you down  
Ima take you down

[Mishon]  
Now, baby grind on me  
Baby wind on me  
And I know you want me  
Ima take you down  
Ima, Ima take you down

[Chorus]  
You so creative  
And I cant lie  
Its gon end up however we make it  
Wearing my favorite and you on fire  
When you look in the mirror press play  
You dancing away, away, away, away  
Girl I found your glass slipper today  
You dancing away, away, away, away  
Ima take you out and take you down  
Down, down  
[2x]  
Imma take you down imma imma take you down [x3]
