I wish you were here with me

When will you learn

You can't run from the sin

They see you run

And the hunt begins

You lie in dreams

Safe in bed

But before I go

Pray to God my soul to keep

As my body walks the street

The war in my heart is

Reflected in the

city of sin

Pain and injustice reign

I exist in a state of pain

Lying in wait

For you to make me sane

I wish you were here with me

-chorus-

There is no hope in

The city of sin

The violence never ends

Lets burn it down

I'm gona burn it down (X3)

-end chorus-

-interlude-

Shadows creep

Round sewer streets

As the cities dead move to hidden beats

My innocence was lost

At heavy cost

When I got lost in

The city of sin

Where things are not as they seem

Shadow casters lie and deceive

To steal away your precious morality

-repeat chorus-

I wish you were here with me..... now

-interlude-
