I don't know why, I say the things I say
I don't know why, that I do what I do, I do it to you
Hey, babe, I don't mean to stray
My heart's caught up in all my yesterdays, and it's a

Chorus
New dawn, it can't be wrong this love

I don't know why, you need all you need
I don't know why, you gotta take, take it, take it from
me
She said that if you listen with your heart
than the words are strong
Like twenty-four, seven of your favorite song and it's a

Chorus

But when the stars start shining there's nothing I can
find
That makes me feel like I should be this way
It's just the heavens giving birth take it for what it's
worth
Your gonna find out for yourself one day, Yeah when

Background: (love, It's love I'm running from)

Your fire stops burning the world keeps on turning
And your feeling like it's come undone
But it's your heart that you've given you never give up
living
And it's love that I've been running from

It's love, this love, love that I've been running from
