You've got the face of a stranger
But you talk to me like I'm your friend
And everyone suffers inside
Do your best to try to hide it
Can I try to hide this?
Why are you scared? (You're scared)
To step away (Step away) from the crowd

You always used to get your way
You can't get it all, you can't get it all
And you always used to take away
You can't get it all, you can't get it
Bite your tongue you will see, what this life's taken
away... Away
You can't get it all, you can't get it

Open your arms and I will fall
And I will fall into nothing 'cause you're gone
I've been nothing for too long
Why are you scared? (You're scared)
To step away (Step away) from the crowd

You always used to get your way
You can't get it all, you can't get it all

And you always used to take away
You can't get it all, you can't get it
Bite your tongue, you will see what this life's taken
away... Away
You can't get it all, you can't get it

It's just a matter of time
Burning bridges I left behind
It's just a matter of time
Burning bridges I left behind
It's just a matter of time
Burning bridges I left behind

Bite your tongue, you will see what this life's taken
away... Away
You always used to get your way
You can't get it all, you can't get it all

And you always used to take away
You can't get it all, you can't get it
Bite your tongue, you will see what this life's taken
away... Away
You can't get it all, you can't get it
