"Remember Me"

Visit "[Remember Me](#)" on MotoLyrics.com

This could be the end
So take in every word I say
(So take in every word I say)
Just remember me
For all my dreams have gone away

So say your prayers to all the angels
And they will say:
Remember me when you are famous
Remember...

This could be a test
We'll build it from the ground again
(We'll build it from the ground again)
Just remember this
We've worked too hard to walk away

So say your prayers to all the angels
And they will say:
Remember me when you are famous
Remember...

So say your prayers to all the fucking angels
And they will say:
Remember me when you are famous
Remember me

Remember me
