Stars fall like tears from your eyes  
The scars on my neck I can't disguise  
So saints sin you realise

Forgive me for giving myself to you  
I cannot justify the things I do

Stars fall, tears fall  
When I'm with you  
Stars fall, tears fall  
When I'm with you

Tears fall like stars from the sky  
The tears on your face you can't disguise  
So saints sin you realise

Forgive me for giving myself to you  
I cannot justify the things I do

Stars fall, tears fall  
When I'm with you  
Stars fall, tears fall  
When I'm with you

Stars fall like tears from your eyes
