Even if you're not here  
I will still love you, deep in my heart  
I believe you and me  
Will be together, eternally

Deep in my sleep, I dream of you  
Calling my name  
But I wake up late at night  
I start to cry and I realize  
That you're not right by my side

Even if, you're not here  
I will remember, I will not fear  
You'll remain in my mind  
Even in darkness a light I will find

I see your face my saving grace  
I'll keep the faith  
And pray you'll come back again  
My pain will end. I'll make it through  
I'll wait a lifetime for you

[Instrumental]

Aaahhh...

Even if morning breaks  
I will remember I will not fear  
I'll move on but I'll keep on  
Hoping that someday...  
Wishes will do...  
Come true...
