I feel empty inside, I just cross my mind
To dreams come true, I never knew
All of the sadness, all of the loneliness
The pain I felt, when you went to me...

Chorus1:

Take me to a place I've never been
Sail me a ship I haven't seen
Bring me happiness, this world can bring
Love is all I need
Love is all I need...

Life's unfair, why am I so in despair
Pretending to be happy in words I say

Chorus2:

Climb a mountain and touch the cloud
Sing a song in different sounds
All the rainbow like a hill in the sky
Love is all I need
I don't know why... I don't know why...

Chorus2:

Climb a mountain and touch the cloud
Sing a song in different sounds
All the rainbow like a hill in the sky
Love is all I need
I don't know why...
I don't know why...
