Message came from outer space,
Future of the human race
Hell is not gonna hottest place,
Let it go, shed your skin
Children never sleep again!

I wanna be your passenger,
Take me as your prisoner.
I want to be an alien,
Take me please, oh alien.

Yo' instruments can't stop our ships
Soon you'll be our guinea pigs.
The rest will all be blown to bits!
Let it go, you had your day,
Spacemen take your kids away.

I wanna be your passenger,
Take me as your prisoner.
I want to be an alien,
Take me please, oh alien.

You must taste our violent fuzz,
Your wars are of no use to us.
You cannot fix what never was,
Let it go, had your day,
The meteor is on its way!

I wanna be your passenger,
Take me as your prisoner.
I want to be an alien,
Take me please, oh alien.
