These paths will cross again, again,
These pants rub off against, against.
These paths will cross again, again,
These pants rub off against, against.

Take your seat on the tip of the star that you sit.
Take your piece, take a sip or
You'll starve from that shit.
Take your piece of that star, take your piece of it kid,
Take your piece or you'll starve,
Take your piece, take it kid.

These paths will cross again, again.
These pants come off against, against.
Take your seat on the tip of the star that you sit.
Take your piece, take a sip or
You'll starve from that shit.
Take your piece of that star, take your piece of it kid.
Take your piece or you'll starve,
Take your piece, take it kid.

These paths will cross again, again.
These pants come off against, against.
Take your seat on that tip of the star that you sit.
Take your piece, take a sip or
You'll starve from that shit.
Take your piece of that star, take a piece of it kid.
Take your piece or you'll starve
Take your piece, take it kid
