Down, down under the earth goes another lover
Down, down under the earth goes another lover
Down, down under the earth goes another lover

Twelve times put a hex on you
Small mouths don't dare to shout out
No fun for a night out
No fun for a night out on the town

Twelve times put a hex on you
Small mouths don't dare to shout it out
No fun for a night out
No fun for a night out on the town

Run away, run away
(...) that you'll stay here
On your own, on your own you're not safe
Run away, run away
(...) that you'll stay here
On your own, on your own you're not safe

Down, down under the earth goes another lover
Down, down under the earth goes another lover
Milk you for what you're worth and call it murder
Down, down under the earth goes another lover

Twelve times put a hex on you
