am, you call to spit some fire out
Did you think that I would listen to you now?
It's nothing new so get in line with all the rest
And I will wait until you realise you're out of breath

Can you hear the crowd? They all go wild
For you, and your denial
I'm watching you break down (break down)
Hate me all you want, I'll be okay
I'm half the world away
I'm letting you go now (go now)

You got sadness twisted up with jealousy
Show your fists to make them look like loyalty
And I have seen what holding on can take away
If it's the past you love then that's where you can stay

Can you hear the crowd? They all go wild
For you, and your denial
I'm watching you break down (break down)
Hate me all you want, I'll be okay
I'm half the world away

I'm letting you go now (go now)
Go now (go now)

Desperation kills (ah-ah-ah-ah)
When it's on your sleeve, you wear it well
Underneath it all (ah-ah-ah-ah-ah)
You'll always have this war inside yourself

I'm letting you go now (go now)

Can you hear the crowd? They all go wild
For you, and your denial
I'm watching you break down (break down)
Hate me all you want, I'll be okay
I'm half the world away
I'm letting you go now (go now)
Go now (go now)
I'm letting you go now (go now)
Go now (go now)
