Here, a little sympathy  
For you to waste on me  
I know you're fakin' it but that's okay  
And I don't wanna to drag it out  
Don't want to bring you down  
I never wanted it to end this way

Even if I wanted to  
I don't think that I'd get to you  
There's nothing I can say to you  
To make you feel alive again

Here  
(Here)  
A little jealousy  
I hope you think of me  
Hope you wonder where I sleep at night  
(Sleep at night)  
'Cause I feel like I'm inside out  
You got me upside down  
Maybe I was holding on too tight

Even if I wanted to  
I don't think that I'd get to you  
There's nothing I can say to you  
To make you feel alive again

So don't just say goodbye to me  
Just turn your back away and leave  
And if you're lucky I will be  
Your last regret, your only friend

The two of us, we dream like one  
( The two of us, we dream like one)  
The two of us, the two of us  
(The two of us, the two of us)  
The two of use take breath like one  
(The two of use take breath like one)  
The two of us, the two of us  
(The two of us, the two of us)

The two of us, we dream like one

The two of us, the two of us  
The two of use take breath like one  
The two of us, the two of us

I guess that this is over now  
I guess it's called the fallin' out  
But everyday I'm learnin' how  
to make it through this life I'm in

Even if I wanted to  
I don't think that I'd get to you  
There's nothing I can say to you  
To make you feel alive again

So don't just say goodbye to me  
Just turn your back away and leave  
And if you're lucky I will be  
Your last regret, your only friend
