i can see all the footsteps left behind,
every second i gave!
every song was a snapshot of my life
i needed something to say!

i started out in a last slow motion scene,
watching everyone change!
made ?one road from here,
i had no reason to stay!

chorus:
i am awake and alive
there is something calling me!
more than a moment in time,
it's a dream i'm following on my own,
on my own, on my own!
more than a moment in time,
it's a life i've lived!

think of me when the stars come out tonight,
take a look at the sky!
never said that i could burn out that?
but i needed it to try!

chorus:
i am awake and alive
there is something calling me!
more than a moment in time,
it's a dream i'm following on my own,
on my own, on my own!
more than a moment in time,
it's a life i've lived!

the day that i found my voice
i knew that i had no choice look at me, and listen close
so i can tell you how i feel before i go
just a year it's not much time
for me to show you i am proud that you are mine
i wish i had known the future in my heart
was just about to start

say tomorrow i can't follow you there

just close your eyes and sing for me

i will hear you, always near you
and i'll give you the words, just sing for me

every lock on every door, i put them there to try and
hide you from the world
and you kicked yeah you screamed
you never understood you're everything to me
i just hope you know, the future in your heart
is just about to start

say tomorrow i can't follow you there
just close your eyes and sing for me
i will hear you, always near you
and i'll give you the words, just sing for me

looking back when i am gone
sing for me, follow your heart it's never wrong, sing for
me
looking back when i am gone
sing for me, don't second guess to know you're all
out of time, oh out of fight
you are the only thing in life that i got right

say tomorrow i can't follow you there
just close your eyes and sing for me
i will hear you, always near you
and i'll give you the words, just sing for me

just close your eyes and sing for me, sing for me
just close your eyes and sing for me.
the only way i ever learn some love
..if i found it on my own!
on my own!

chorus:
i am awake and alive
there is something calling me!
more than a moment in time,
it's a dream i'm following on my own,
on my own, on my own!
more than a moment in time,
it's a life i've lived!
