Do you remember when I said you were my only one
We were running underneath the California sun
Well now i look at you and you're still more than I can
take

You're like a slow song starting to accelerate.
And all my life, I looked for you
For arms that I could fall into.

chorus:

All I can think about is you and me driving
With a Saves The Day record on
We were singing till our voices were gone
And I was falling hard
You were barely hanging on.
And now I wanna chase forever down
With you around.

You're making movies in your head when you fall
asleep
Having nightmares, dreaming that I'm gonna leave
I know you've always been afraid of ending up alone,
Somebody heard you, now you're waiting on a dial tone
But I'm right here, so don't get blue
It's not just you, I need this too.

chorus:

All I can think about is you and me driving
With a Saves The Day record on
We were singing till our voices were gone
And I was falling hard
You were barely hanging on.
And now i wanna chase forever down
With you around.

We were running underneath the California sun,
Underneath the California sun.

chorus:

All I can think about is you and me driving
With a Saves The Day record on
We were singing till our voices were gone

We put our record on
We kept singing till our voices were gone
And I was falling hard
You were barely hanging on
And now I wanna chase forever down
With you around
