Got to get you home on the last bus
I know it's late, so don't make a fuzz
There's trouble growing for the both of us
When I get you home
To your mom and dad.
All night long you've been nagging me
And that reminds me, oh, have you got your key?
I don't fancy climbing the big old tree
Cause the first and last time
I've got disgust to show
Oh oh.
* Grandmother says
* Shouldn't make love at the gate
* For love is blind
* But the neighbors ain't
* Grandmother says
* And she should know you know
* Grandmother says, grandmother says.
** Aren't you going to ask me inside
** Or leave me here in the cold and rain
** And if you do, I won't come round again.
Oh, don't you want me too
I'll be good to you.

* Refrain...
** Refrain II...

Oh, don't you want me too
I'll be good to you.
