This is an emergency
They shot down in the dark
They did it cause it paid a fee
Now there's nothing to die for
All the kids from miles around
Are fools in paradise
Don't know about the pirate sound
So the scene is an eyesore
Coming back we fly away
Ja ja come and so I live to see another day
All I think about if I were just to run away
Will I come back to love you now?
I don't want to change the world
I only want to stop pretending
What you say? Come again
What you say? Come again now
Nothing left to but let it burn
I only hope we're all ascending high
What you say? Come again
What you say? Come again now
All around my home town

They try to chop me down

But the truth shall not forsake me

Take me up to higher ground

And yooooou-ooooo

You're the light when the feeling is dark

You're pretending the game is a race

Because you're born and you'll die in my heart

I don't want to change the world

I only want to stop pretending

What you say? Come again

What you say? Come again now

I will never let you down

I'll be right here beside you, hanging around

So if you think you let me down

You leave me here in silence, without a sound

Change words

Ch-change verse

We change verbs

Cause why would I change when there's no one to
play the time?
