Something\*s goin on  
I don\*t know what it is  
But my phone just rang and I didn\*t get no call  
No call.  
Just waiting here

Abilene, it's got a lot of what you don\*t need  
It\*s got lots of space  
Still nothing seems misplaced  
You\*ve got a face  
You are spacey

You got to take it as it comes to you  
Don\*t need no act of contemplation  
Just keep it off your wasteful way for now (?)  
It\*s not you who has got to change  
It\*s not your way at all  
It\*s got to be you

It\*s got to be you  
The look in your eyes,  
The feel of your body close to me  
It\*s got to be you  
Who tells me the world spin away without love

You...  
Reason, oh, reason for being once more together  
It\*s got to be you.  
It\*s got to be you  
The look in your eyes,  
The feel of your body close to me  
It\*s got to be you  
Who tells me the world spin away without love

You...  
Reason, oh, reason for being once more together  
It\*s got to be you.  
It\*s got to be you.  
It\*s got to be you.  
It\*s got to be you.
