(Jon Anderson)

Rejoice forward out this feeling  
Ten true summers long  
We go round and round and round and round  
Until we pick it up again

Time flies, on and on it goes  
Thru the setting sun  
Carry round and round and round and round  
Until it comes to carry you home

Rejoice forward out this feeling  
The white eagle soars  
He goes round and round and round  
Until the early winds of change

Dawn's new light conquering timeless ease  
Spread the harvest breeze  
Let our hour of passion  
Gently hold our heads on high with you

Gently hold our heads on high
