(Jon Anderson/Chris Squire)

You're first I'm last
You're thirst I'm asked to justify
Killing our last heaven beast
Don't hunt the whale

In beauty vision
Do we offer much
If we reason with destiny, gonna lose our touch
Don't kill the whale

Rejoice they sing
They worship their own space
In a moment of love, they will die for their grace
Don't kill the whale

If time will allow
We will judge all who came
In the wake of our new age to stand for the frail
Don't kill the whale
