Dreamtime begins
Where every song is the perfect place
Words never spoken
Are the strongest resounding

Life force is meant for us
To remember the stars, the earth
Still we forget
So asleep in this dreamtime
Lost in this dreamtime day

Take me up into that freedom place and justify
Electrify the senses sharpen than the soul intensify
Nominate that we can break out take, take, take, take
together
Hesitate and you will dance on this earth to, to forever

You are the choice forever trying
Give you wings forever flying
You can fly, you can glide, you can dream
You can see through this interactive vision streaming

You have the faith
So busy trying
So let it go
Forever flying

To the sky, to the earth, to the moon, to the sea
To the sun, to the stars, to the dream you become

Nothing left to lose
Nothing more to prove
With wings of gold
You'll fly away

Talk among the prophets
Give you something
Talk among the teachers
Tell you something
Talk among your one true self now
Forever, forever, forever, forever

Dreamtime begins
Where every song is the perfect place
Words never spoken
Are the strongest resounding

Life force is meant for us
To remember the stars, the earth
Still we forget
So asleep in this dreamtime
Lost in this dreamtime day

Take me up into that freedom place and justify
On the silent wings of gold my soul intensify
Nominate that we can take, take, take, take, take,
together
Demonstrate that we can break it out and take it
forever

Here's what you know
Here's what you're asking
The soul is everlasting
