Hold your head up high you know you've  
Come a long, long way  
Tainted as a fugitive with nothing left to say  
Temptation may come hope your vision doesn't stray  
In the name of God you might be forced away

Moving forward to the only place you know  
Side tracked by some indiscretion  
Changing as you go  
Temptation may come hope your  
Conscience doesn't hide  
The longest trip you'll take is inside

It's the last time telling myself everything  
Call me over then bring me back again  
It's the last chance telling myself I believe  
Your forever is mine and all I need

Now life tell me now in your arms  
All I really need is you by my side  
I sing this for you, all the world and all it is  
I bring this to you, this gift of love

And the world turns, and the world turns  
Time tells all we know we look to it  
Jesus on the radio  
Pledge me what you got I'll give you  
Eternal resting spot  
How intense I pray depends on how much you pay

It's the first time getting it this life  
First calling in a silent spring  
It's the first time getting it this life  
First calling in a silent spring  
Fear strikes deeper than visionary  
Screams and tears never justify this love

Talk, talk, listening (ever to reach out)  
Talk, talk  
In a silent spring  
Talk, talk, listening (ever to reach out to you)

Talk, talk  
Like the first songs you start to sing

So take your time  
Look 'round and see  
The most in time is where you're meant to be

For they talk too loud  
And take the hope and peace from your heart  
We call this surrender  
Slowly towards the north  
And this endless dream giving ourselves everything  
We're deserving, gonna bring it back again

It's the first time, telling myself everything  
It's the last time, bring me back, bring me back again

When the world brings you down  
You can search you inside  
For the love you will find (bring me back home)  
When the world brings you down  
You can search you inside  
When the world brings you down  
I've waited so long  
When the world brings you down  
You gotta play this living game
