The remembering
All our thoughts, impressions, knowledge, fears
Have been developing for millions of years
What we can relate to is our own past
Our own life, our own history

Here, it is especially Rick's keyboards
Which bring alive the ebb and flow
And depth of our mind's eye
The topographic ocean

Hopefully we should appreciate
That given points in time are not so significant
As the nature of what is impressed on the mind
And how it is retained and used

As the silence of the seasons
On we relive abridge sails afloat
As to call light to the soul shall
Sing of the velvet sailors' course on

Of the velvet sailors' course on
Shine or moons send me memories
Trail over days of forgotten tales
Course the compass to offer
Into a time we've all seen on
Into a time we've all seen on

High the memory carry on
While the moments start to linger
Sail away among your dreams
The strength regains us in between our time
The strength regains us in between our time

As we shall speak to differ
Also the ends meet the river's on
So the ends meet the river's son

Ours the story shall we carry on
And search the forest of the sun
We dream as we dream, dream as one
And I do think very well

That the song might take you silently
They move fast they tell me
There's someone rainbow, alternate tune

In the days of summers so long
We danced as evenings sang their song
We wander out the days so long
And I do feel very well

That the evenings take you
Silently, they move round
Sunlight, seeing ground
Whispers of clay, alternate ways

Softer messages bringing light to a truth long
forgotten on
As we shall speak to differ also the ends meet the
river's son
So the ends meet the river's son

I reach over and the fruit of life stands still
Stand awhile we search our past we start anew
The music sings of love you knew
We walk around the story

Out in the city running free
Sands of companions sides that be
The strength of the meeting lies with you
Wait all the more regard your past
School gates remind us of our class
Chase all confusion away with us

Stand on hills of long forgotten yesterdays
Pass amongst your memories told returning ways
As certain as we walk today
We walk around the story

Out in the city running free
Days pass as seconds turn the key
The strength of the moment lies with you

Don the cap and close your eyes
Imagine yourself that is the challenge
Iron metal cast to other, distant drums

Force the bit between the mouth
Of freedom didn't learn to fly
Remember to sail the skies
Distant suns

Will we reach
Winds allow other skylines
Other skylines to hold you

Relayer, all the dying cried before you
Relayer, we've rejoiced in all their meaning
Relayer, we advance we retrace our stories

Like a dreamer all our lives
Are only lost begotten changes
We relive in seagull's pages
Outwards ways

Things are all in colors and the size
Of other's shall send you forward
Arranged to sail you toward
A peace of mind

Will we reach, winds allow
Other skylines
Other skylines to hold you

Relayer, all the passion spent on one cross
Relayer, sail the futile wars they suffer
Relayer, we advance we retrace our story, fail safe now

Stand on hills of long forgotten yesterdays
Pass amongst your memories told returning ways
As certain as we walk today
Press over moments leaving you

Out in the city running free
Days pass as seconds turn the key
The strength of the moment lies with you
Out tender outward lights of you
Shine over mountains make the view
The strength of you seeing lies with you

Ours entrance we surely carry on
And change the passing of the sun
We don't even need to try we are one

And I do think very well
As the truth unfolds you
Silently, they move time
Rainbows, sunlight
Alternate tune, alternate tune

Rainbows, soft light
Alternate view, sunlight
Tell me, someone

Alternate view, alternate view
Surely, surely
