Anderson/Squire/Howe/White/Sherwood/Khoroshev

I can lift you with my heart  
Give you meaning every day  
Cannot live without your truth

And be the true me  
To be the true you

Pick the flowers from your floor  
Put them in your arms for you my love  
Realise my life and more

Say you will 'n' then

Take me home  
Make me clear  
It feels so much better  
Take me home  
To this heart of hearts

If only you knew  
You caught me when I was falling  
Yes you caught me when I was falling fast

And only you knew  
You answered me when I was calling you  
You saw me when I was dreaming you  
Into my life

Everyone who looks at you  
Sees the loving in your every move  
You're the healing of the soul

To be the true you  
To be the true me

I will be your strength all time  
Ever wishing you this love and more  
Forever be your guiding song

Say you will and then

Take me home  
Make me clear  
To feel so much better  
In this life  
In your heart of hearts

If only you knew  
How you caught me when I was falling  
Yes you caught me when I was falling fast

And only you knew  
You answered me when I was calling you  
You saw me when I was dreaming you  
Into my life

When I feel the hurt in so many peoples' lives  
I take a deep breath and think of your smile your eyes

When I hear the sadness of this earthtime  
Then I take a deep breath and know that you  
understand  
That you understand

And only you knew  
How you caught me when I was falling fast  
Caught me when I was falling fast

If only you knew  
How you answered me when I was calling you  
You saw me when I was dreaming you

If only you knew  
Yes you caught me when I was falling fast  
You caught me when I was falling  
Into your life
