Deeper than every ocean  
Deeper than every river  
That's what your presence brings to me

Revealing the words I listen  
Seeing you in my silence  
Learning I'm with you constantly  
As I was before

If we were flowers  
We would worship the sun  
So why not now?  
This high is shining brightly  
Brighter than before

As the door was open wide  
There inside was a diamond chair  
Where I sat when I was young  
I wrote down the words

Only when the young at heart  
Can enter the real world  
This chance I've waited for  
For you to see

If I had chances I would spend them with you  
To hold you close and let your love surround me  
Deeper than before

(Deeper than every ocean)  
And I know this love is real  
(Deeper than every river)  
Realize this is meant to be  
(That's what your eyes they say to me)  
You are listening to how I feel  
So expectedly  
(Brighter than every morning)  
From the ocean to the sky  
(Beautiful as the sunset)  
Every river to the sea

(Nature surrounds me constantly)  
We can hear love constantly  
This is for you and me

Turn around and come deeper now  
So what happens when I touch you there  
You feel the words roll over you  
Thinking of the better scenes  
The memories  
As everybody else just  
Hasn't got the time  
To help you anymore

?Cause if the reason for  
The things that pleasure us  
To please ourselves  
Not pressure us  
To give our ego  
Some pleasure time

Can you imagine  
Any reason  
To know you're only fooling yourself  
And then you'll understand why  
You'll understand why

So if we choose to realize  
All existence is a dream  
This perfect resume to you  
From me

Just had a tough time with magic  
The death of ego  
The moon  
It was just coming through

Send me such a good time  
In a letter form, tell me  
The pleasure, no pressure  
Pure imagination in a metaphoric dream

I get amazed like a true beginner  
I get amazed like a true believer  
I get amazed when I see you there  
And I come alive

I believe I'm a true beginner  
I believe I'm a true beginner  
In your arms I can see it all  
I can see it all

If we were flowers  
We would worship the sun  
So why not now?  
This light is burning brightly  
(This light is burning brightly)  
Brighter than before  
(Brighter than before)  
Brighter than before  
(Brighter than before)

Turn around and remember that  
When it gets so low  
As you finally hit the ground

Turn around and remember that  
Now I'm standing tall  
Standing on my sacred ground

Turn around and remember that  
When it gets so low  
As you finally hit the ground

Turn around and remember that  
Now you're standing tall  
Standing on sacred ground  
Standing on sacred ground  
Standing on sacred ground

Turn around and remember that  
When it gets so low  
As you finally hit the ground

Turn around and remember that  
Now I'm standing tall  
Standing on sacred ground  
Standing on sacred ground  
Standing on sacred ground
