I won't sleep again
Until I sleep again
With you
I won't dream again
Until I dream again
With you
One look in your eyes and I see the light
Shining through
I truly believe in the magic of all
That you do
Give me hope
When I need it
Give me peace
When I feel it
Give me life
When I breathe it
Give me dreams
Keep me dreaming
One look in your eyes and I know it's right
For me and you
Feel the love
Shine
Do you feel the love
Shine
Feel the love
Shine
Do you feel the love
Shine

All good people
Your flame is a fire that burns in the night
Guiding me through
Drawn out of the darkness and into the light
You bring me to
Give me hope
When I need it
Give me peace
When I feel it
Give me life
When I breathe it
Give me dreams

Keep me dreaming
One look in your eyes and I know that it's right
For me and you
Do you feel the love
Shine
Feel the love
That shines
Do you feel the love
Shine
Feel the love
That shines
I won't dream again
Until I dream again

All good people gotta feel the love
I won't sleep again
Until I sleep again
With you
One chance in a million to find a true love
Between two
Taken by the powers of what you believe
Knowing you can't lose
Give me hope
When I need it
Give me peace
When I feel it
Give me life
When I breathe it
Give me dreams
Keep me dreaming
One look in your eyes and I know it's right
For me and you

Beyond the sun
Beyond the sky
Is where the questions lie
Starlight

It was the first time candlelight
Something happens in your lifetime
It's the dance we all go through
