Hold on to the miracle of life
(Hold on)

Hold on to the miracle of life
Hold on to the miracle of life
Hold on to the miracle of life

Sacred lives, emotions
Been washed away like mud
You don't want my devotion
You'd rather be washed in blood

Can we turn away from this open anger?
Can it all betray?
Don't you feel the danger to the miracle of life?

Sing when open hearts are calling
Shout with open eyes
(To the miracle of life)
Far below the deepest treasure
To the miracle of life

Living in times of luster
Waiting for the flood
We don't agree with your concepts
You'd rather be washed in blood

Is it any wonder?
(In my lifetime)
Cold depth of blue water
Is it any wonder?
(In my lifetime)
Rising tide to slaughter
It's gonna be worth it

Sing when open hearts are calling
Shout with open eyes
(To the miracle of life)
Far below the deepest treasure
To the miracle of life

Sing when open hearts are calling

Shout with open eyes
(To the miracle of life)
Far beyond your deepest pleasure
To the miracle of life

Pacifica, India
Atlantica, Antarctica

Can we turn away from this open anger?
Can it all betray?
Don't you feel the danger to the miracle of life?

Sing when open hearts are calling
Shout with open eyes
(To the miracle of life)
Far below the deepest treasure
To the miracle of life

Sing when open hearts are calling
Shout with open eyes
(To the miracle of life)
Far beyond your deepest pleasure
To the miracle of life

Hold on to the miracle of life
Hold on to the miracle of life
(To the miracle of life)

Pacifica, Atlantica
India, Antarctica, sing

(To the miracle of life)
Hold on to the miracle of life
Hold on to the miracle of life
Hold on to the miracle of life
Hold on to the miracle of life
