I see the cold mist in the night
And watch the hills roll out of sight
I learned in every single day
Inside out, outside in, every way

The sun can warm the coldest dawn
And move the movement on the lawn
I watch in every single way
Inside out, yea, outside in, every day

There you are
Makin' it up but you're sure that it is a star
When all you'll see
It's an illusion shining down in front of me
There you'll say
Even in time we shall control the day
When all you'll see
Deep inside the day's controlling you and me

And one peculiar point I see
As one of many ones of me
As truth is gathered, I rearrange
Inside out, outside in
Inside out, outside in
Perpetual change

There you are
Saying we have the moon, so now the stars
When all you see
Is near disaster gazing down on you and me
There you're standing
Saying we have the whole world in our hands
When all you'll see
Deep inside the world's controlling you and me

You'll see perpetual change
You'll see perpetual change

Aaa, aaa

There you are
Saying we have the moon, so now the stars

When all you see
Is near disaster gazing down on you and me
There you're standing
Saying we have the whole world in our hands
When all you'll see
Deep inside the world's controlling you and me

As mist and sun are both the same
We look on as, as pawns of their game
They move to testify the day
Inside out, outside in
Inside out, outside in
All of the way
Yea, yea
Ahh, all the way, yea

Thank you
This is a song called, "Are you alive?"
