(Trevor Rabin/Chris Squire/Jon Anderson)

Get the fire as the flame it burns
Get the wind as it slowly turns
Get the earth as it circles by
Get the sky sea creation fly

This point of living
This point of giving
This chance of living has got to be known

Get the fire as the flame it burns
Get the wind as it slowly turns
Get the earth...
Get the sky...

Far away in the depths of Hawking's mind
To the animal, primalistic grind
You bring me reason, a simple fact of life (Bring me
reason...)
You don't say you're sorry...

Call this real love
Activates this mission to be
On the same timeline
Call this free love
Get a ticket on the master plan
On the freedom climb

Get the fire as the flame it burns
Get the wind as it slowly turns
Get the earth...
Get the sky...

The point of living
The point of living
This chance of living
Far away in the depths of Hawking's mind
To the animal, the primalistic grind
You bring me reason, a simple fact of life
You don't say you're sorry

Call this free love
Activate the mission to be on
The same timeline
Call this free love
Get a ticket on the master plan
On the freedom climb

Call this free love
You can activate this message
On the concourse of your fine mind
Call this real love
Get off those chains, get off those chains
Get off those changes coming to you
