(Jon Anderson)

Rejoice forward out this feeling
Ten true summers long
We go round and round and round and round
Until we pick it up again
Time flies, on and on it goes
Thru the setting sun
Carry round and round and round and round
Until it comes to carry you home
Rejoice forward out this feeling
The white eagle soars

He goes round and round and round
Until the early winds of change
Dawn's new light conquering timeless ease
Spread the harvest breeze
Let our hour of passion
Gently hold our heads on high with you
Gently hold our heads on high
