Innocence no answer to your breaking heart
If the situation sometimes falls apart
Then in this ecstasy your charms are frozen
No emotion falling through your arms

Morning, daydream time still growing shorter
Take me over lead me to the water

To the rhythm of love
To the rhythm of love
The rhythm of love

Why should I escort you to your secret needs
Climbing up your ladder I keep falling down
Anyway will do, anyone will do
When you dance to your darkest tune
Surrounded as you crawl around the room

Night time fever burning till you're higher
Take me over lead me through the fire

The rhythm of love
To the rhythm of love
The rhythm of love
To the rhythm of love

Morning daydream midnight fever
Morning daydream midnight fever

The rhythm of love

Inhibitions keep you from your point of view
Information needing to confuse
In this situation I have found you
In the rhythm of

Morning daydream midnight fever
Morning daydream midnight fever

Rhythm of love
Rhythm of love
Rhythm of love

To the rhythm of love
Rhythm of love
