In the street where we live there's a place called desire
There's a stone-cold intrusion of mad man's fire
But he leaves when the lust and desire released
And you're left with an empty room in peace

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
Till the blood in my veins run dry, I'll be there to testify
There's a place in my heart for you

I've been lost in the maze of emotional confound
I believe that you knew that our faith was secure
How you kept up your smile with a cool disposition
Are you stocking the fire with a new sense of reason

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
Till the blood in my veins run dry, I'll be there to testify
There's a place in my heart for you

You tell me to take it easy, but it's not my style
There's something around the corner, it'll pass you by
I wanna hold you closer to connect my fortunes
I wanna take you higher, taking off like we did before

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
Till the blood in my veins run dry, I'll be there to testify
There's a place in my heart for you

Saving my heart for you
There's a place in my heart for you
There's a place in my heart for you

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
Till the blood in my veins run dry, I'll be there to testify

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
Till the blood in my veins run dry, I'll be there to testify

Saving my heart for you, you do what you want to do
There's a place in my heart for you, this time I'm
watching you
