That talk is just a worry and a worry in a man  
That life is just a worrying and getting in a mess  
That deal is just awakening his spirit to be giving him  
The pleasure of the giving things within

That word is in it, that talk is in it  
This day is of a meeting of the manner to be borne  
And like a ship you come safely to the shore of love  
eternal

That beat is of the wanting of the where you're going  
That street talk is the basis of the push and shove  
They never told you that you have the right  
The spirit of the angel, angels sing "Shaava, shava  
shava-Shaava"

They be waiting for you, they be asking for you  
We depending on you, we depending on your healing  
of the structure centre  
Until you reach and touch your own redemption

They never give you a reason, they never give you a  
reason  
They never give you a, give you a, give you a, give you  
a reason
