Shrutis: The Revealing Science of God can be seen as  
an ever-opening  
flower in which simple truths emerge examining the  
complexities and  
magic of the past and how we should not forget the  
song that has  
been left to us to hear. The knowledge of God is a  
search, constant  
and clear.

Dawn of light lying between a silence and sold sources,  
Chased amid fusions of wonder, in moments hardly  
seen forgotten,  
Coloured in pastures of chance dancing leaves cast  
spells of  
challenge,  
Amused but real in thought, we fled from the sea  
whole.  
Dawn of thought transferred through moments of days  
undersearching  
earth  
Revealing corridors of time provoking memories,  
disjointed but with  
purpose,  
Craving penetrations offer links with the self instructors  
sharp  
And tender love as we took to the air, a picture of  
distance.  
Dawn of our power we amuse redescending as fast as  
misused  
Expression, as only to teach love as to reveal passion  
chasing  
Late into corners, and we danced from the ocean.  
Dawn of love sent within us colours of awakening  
among the many  
Won't to follow, only tunes of a different age.  
As the links span our endless caresses for the freedom  
of life  
everlasting.  
Talk to the sunlight caller  
Soft summer mover distance mine.  
Called out a tune but I never saw the face

Heard but not replaced  
I ventured to talk, but I never lost my place  
Cast out a spell rendered for the light of day  
Lost in lights array  
I ventured to see, as the sound began to play  
What happened to this song we once knew so well  
Signed promise for moments caught within the spell  
I must have waited all my life for this  
Moment moment  
The future poised with the splendour just begun  
The light we were as one  
And crowded through the curtains of liquid into sun

And for a moment when our world had filled the skies  
Magic turned our eyes  
To feast on the treasure set for our strange device

What happened to wonders we once knew so well  
Did we forget what happened surely we can tell  
We must have waited all our lives for this  
Moment moment moment  
Starlight, movement, reasons  
Release forward  
Tallest rainbow  
Sun shower seasons  
Life flower reasons  
They move fast, they tell me,  
But I just can't believe that I can feel it  
There's someone to tell you,  
Amid the challenge we look around in unison with you  
Getting over overhanging trees  
Let them rape the forest  
Thoughts would send our fusion  
Clearly to be home  
Getting over wars we do not mean  
Or so it seems so clearly  
Sheltered with our passion  
Clearly to be home  
They move fast, they tell me,  
But I just can't believe they really mean to  
There's someone, to tell you,  
And I just can't believe our song will leave you  
Skyline teacher  
Warland seeker  
Send out poison  
Cast iron leader  
And through the rhythm of moving slowly  
Sent through the rhythm work out the story  
Move over glory to sons of old fighters past.  
Young christians see if from the beginning  
Old people feel it, that's what they're saying.

Move over glory to sons of old fighters past.  
They move fast, they tell me,  
But I just can't believe they really mean to.  
There's someone, to tell you  
A course towards a universal season.  
Getting over overhanging trees  
Let them rape the forest  
They might stand and leave them  
Clearly to be home  
Getting over wars we do not mean  
We charm the movement suffers  
Call out all our memories  
Clearly to be home  
We've moved fast  
We need love  
A part we offer is our only freedom  
What happened to this song we once knew so well  
Signed promise for moments caught within the spell  
We must have waited all our lives for this  
Moment moment  
Past present movers moments we'll process the future,  
but only  
through him we know send flowered rainbows  
A piece apart chased flowers of the dark and lights of  
songs to  
follow and show all we feel for and know of  
Cast round  
You seekers of the truth accepting that reason will  
re-live and  
breath and hope and chase and love  
For you and you and you.
