I get up, I get down  
Now that it's all over and done  
Now that you find, now that you hold

My eyes convinced, eclipsed with the younger moon  
attained with love  
It changed as almost strained amidst clear manna  
from above  
I crucified my hate and held the word within my hand  
There's you, the time, the logic or the reasons we don't  
understand

Sad courage claimed the victims standing still for all to  
see  
As armored movers took approached to overlook the  
sea  
There since the cord, the license, or the reasons we  
understood will be

Down at the edge, close by a river  
Close to the edge, round by the corner  
Close to the end, down by the corner  
Down at the edge, round by the river

Sudden caution shouldn't take away the startled  
memory  
All in all, the journey takes you all the way  
As apart from any reality that you've ever seen and  
known  
Guessing problems only to deceive the mention

Passing paths that climb halfway into the void  
As we cross from the side to side  
We hear the total mass retain

Down at the edge, round by the corner  
Close to the end, down by a river  
Seasons will pass you by  
Get up, get down
