Looking up into the endless sky
Staring into the maze of time
Our existence caught in the blink of an eye
Imagining other worlds we try
Realizing somehow we're all part of this
Wondrous cosmical tapestry
Beyond the sun
Beyond the sky
Are where the real
Questions lie
Wanting to know
Where it begins
The puzzle piece
We are missing
Starlight
Starlight
Flowering
Flowering
Endlessly through the universal garden
Garden above
Looking up into the endless sky
Staring into the maze of time
Our existence caught in the blink of an eye
Imagining other worlds we try
Realizing somehow we're all part of this
Wondrous cosmical tapestry
Beyond the sun
Beyond the sky
Are where the real
Questions lie
Wanting to know
Where it begins
The puzzle piece
We are missing
Starlight
Starlight
Flowering
Flowering
Endlessly through the universal garden
Garden above
Investigate the science of illusion

We benefit without knowing
Our time is man-made
Our fear is man-made
Delusion man-made
Religion man-made
Flowering
Endlessly through the universal garden
Garden above
Beyond the sun
Beyond the sky
Are where the real
Questions lie
Wanting to know
Where it begins
The puzzle piece
We are missing
Beyond the sun
Beyond the sky
Are where the real
Questions lie
Universal garden
Above
