Here we are in the here and now
All i can see is what's in front of me
All i know is what you tell me know
I know is what you tell me now
So tell me now

I'll continue on i know somehow
can't remember how it felt just then
Can't seem to remember when
Can't seem to remember when
Even then

Did it feel like it should?
Did it feel really good?
Want to be back there now
Wish i could and you would

Wonder if you held me tight
and did you shield me from my fright?
Where are you now?
Where are you now...
are you now?

All i can see is what's in front of me
All i know is what you tell me now
It doesn't seem the same somehow
