Action reaction, once you get started you can't stop,
action reaction you might think it's new but it's not
Action reaction, the girl knows just what to do,
action reaction, she gets some reaction from you.

She's gonna take you by surprise,
she's gonna hit you right between the eyes
She'll use her hippest trick, just to make your street
slick
Then she'll take you for a ride,
she knows how to satisfy, come get your satisfaction

Action reaction, once you get started you can't stop,
action reaction you might think it's new but it's not
Action reaction, the girl knows just what to do,
action reaction, girl gets reaction from you.

She's gonna take you for a ride, she's gonna drive you
real fast
Better than what you planned for, you won't have to
beg for more
She's runnin' all the red lights,
burnin' straight on through the night, she's your non-
stop satisfaction

(Action reaction) gonna put it to you
(action reaction) she knows just what to do
(action reaction), she'll get a reaction
(action reaction) 'cause once you get started she can't
stop,
she can't stop, (x5)
can't she can't she can't she can't stop!
....action, reaction
