THE MISSION: Like A Child Again
Im not scared anymore
Im not scared of the dark when I sleep with you
And Im feeling alive
And Im feeling strong again when Im with you
And it hits me
Just like a runaway train
And it blows me away
Just like a hurricane
You make me happy and I hope you feel the same
You make me feel just like a child, a child again
Im not trapped anymore
Between Madonna and the whore when I lay with you
And the days run away
Like wild horses run away when Im with you
And Im breathing you in
Just like the morning air
And Im wrapping you around
Just like a skin to wear
Oh sweet thing
Im born once again
For you sweet thing
Just like a baby again
You make me happy and I hope you feel the same
You make me feel just like a child, a child again
